Description:

Support second-grade students with 180 daily practice activities to build their mathematical fluency. Each problem is tied to a specific mathematical concept to help students gain regular practice of key grade-level skills. This book features quick, diagnostic-based activities that are correlated to College and Career Readiness and other state standards, and includes data-driven assessment tips. Digital resources include assessment analysis tools and pdfs of the activity sheets. With these daily practice

activities, teachers and parents will be helping second graders improve their math skills in no time!

About Shell Education

Rachelle Cracchiolo started the company with a friend and fellow teacher. Both were eager to share their ideas and passion for education with other classroom leaders. What began as a hobby, selling lesson plans to local stores, became a part-time job after a full day of teaching, and eventually blossomed into Teacher Created Materials. The story continued in 2004 with the launch of Shell Education and the introduction of professional resources and classroom application books designed to support Teacher Created Materials curriculum resources. Today, Teacher Created Materials and Shell Education are two of the most recognized names in educational publishing around the world.
