Description:

From Library Journal Abandoned as a baby by her mother, orphaned at 23 by the cold man she thought was her father, Lanen Kaelar leaves home to find Dragon Isle of which she has long dreamt. This adventure fantasy by a gifted storyteller belongs on most fantasy collection shelves. Copyright 1997 Reed Business Information, Inc. --This text refers to an out of print or unavailable edition of this title.

From Every time it looks as if dragons had been done to death, along comes a yarn like this to revive them. Lanen Kaelar has always dreamed of dragons. Now she sets out on a long, perilous, winding road to find them. As she proceeds, magic seems to be pursuing her; perhaps that is

because she may be the child of a father who promised his firstborn to demons. The dragons she seeks are ultimately not the ones she has dreamed of, for they are divided among themselves over whether the best way to preserve their ancient culture is to deal with humans or to shun them. With excellent narrative technique, wit, and intelligence, Kerner weaves these strands into a brisk story capped by a plausible happy ending. Her very superior debut deserves its place in most fantasy collections. *Roland Green* --This text refers to an out of print or unavailable edition of this title.
